Proven Performance

Spray foam insulation can be applied almost anywhere in the home. It is the best insulation for the walls in your crawl space or basement. It is also ideal for attics, exterior walls and soundproofing interior walls. This application provides a perfect seal against drafts, which makes it up to 50% more efficient than batt insulation. Energy costs are reduced and your home comfort is enhanced.

Icynene:

- Contains no HCFCs, HFAs, HFCs, HCs, formaldehyde or VOCs
- Meets ALA Health House, EarthCraft and Energy Star efficiency standards
- Promotes maximum indoor air quality and sustainability
- Does not support mould growth
- Uses water (not chemicals) as a blowing agent
- Provides air barrier

25 year or lifetime warranty! Reduces energy loss!
